

ULTIMATE JAGUAR PARTS SPECIALIST

S-TYPE

1999 - 2008

THE PARTS COLLECTION

INTRODUCTION

WELCOME

SNG Barratt first started to sell and remanufacture Jaguar E-Type components in the 1970's. With constant re-investment the range quickly grew and more and more items were re-introduced. Now many years later we make a multitude of parts for the entire range of classic Jaguars. This catalogue is designed purely with the S-Type owner in mind and offers a comprehensive range of the products that we can provide.

YOUR CUSTOMER NUMBER

Upon dealing with SNG Barratt for the first time you will be allocated a customer number. In most cases this will be your UK postcode or in the USA your telephone number. However if you are outside the UK/USA your sales advisor will use either your postal area code or a number devised using your surname. This customer number can either be found on your invoice or simply by asking the person serving you. The ability to provide your customer number when contacting our sales department will allow us to access your information far faster and serve you even more efficiently.

Customer Number:

HOW TO USE THIS CATALOGUE

Use the illustration in each section to identify the component that you require. Note the indicated item number and find the corresponding number in the section listing. There you will see our part number for that item, the description and to it's right the quantity required per car. Very often this will be the original Jaguar part number, thus allowing you to refer to an original factory parts catalogue if more detail is required.

If you then quote this part number when contacting our sales department or enter it into our website, we will be able to confirm the cost (all prices are also available online) and whether we have the part in stock.

If you cannot find or conclusively identify the item that you require then please call and we will aim to assist you. Whilst this catalogue is a comprehensive publication it is not a definitive guide to everything that we do. Our staff have many years of experience with all aspects of the Jaguar marque and may have just the answer...

Gear Control Cable - Automatic

Description	Part number	Quantity required per car
1. Gear Control Cable		
To VIN M45254	XR833366	1
From VIN M45255	XR855991	1
2.7 Litre Turbo Diesel	XR855992	1

We manufacture hundreds of Jaguar parts and have access to thousands more, for both classic and modern cars.

You can download your very own set of catalogues from our website at

www.sngbarratt.com

INTRODUCTION

THE NEW JAGUAR S-TYPE

Launched at the Birmingham Motor Show in 1998 the S-Type was produced from 1999 up to 2008 and received a mild facelift for the model year 2005, in total 290,550 S-Types were manufactured, averaging around 32,000 cars per year.

The car, at the beginning of production, was powered by a 4.0 litre AJ-V8 engine, in 2002 a 4.2 Litre V8 engine was fitted. Also in 2002 Jaguar introduced the S-Type R with a 4.2 Supercharged V8 engine, this was designed to compete with the German high performance saloons such as the BMW M5 and the Mercedes-Benz E55 AMG. A 2.5 V6 Petrol engine was offered at the beginning of production, although not available for cars exported for USA and Canada, in 2003 Jaguar introduced a revised 3.0 V6 Petrol engine, along with a revised dash, centre console and a new radiator grille with the Jaguar badge incorporated.

In 2005 a mild facelift was ordered which included redesigned front and rear aprons, rear lights, an aluminium bonnet, a slightly modified grille and new 2.7 Litre V6 Diesel engine.

From 1999-2002 the S-Type had a choice of a 5-speed manual gearbox or a 5-speed J-Gate automatic, and then from 2003 the car was produced with, once again, a 5-speed manual or a 6-speed J-Gate automatic which offered automatic gear selection or a clutchless manual selection. The diesel engine was made available with a 6-speed manual gearbox, but was also available with the 6-speed J-Gate automatic transmission.

The S-Type finally ceased production in 2008, the cars successor was the Jaguar XF which commenced production in 2007.

YOUR VEHICLE DETAILS

Please complete this section as accurate vehicle information at your finger tips will prove to be invaluable. Very often identifying the correct part for you car can be all down to chassis or engine number. These details can best be found on the car itself, as registration documents can often prove to be incorrect due to engine swaps and vehicle upgrades that the DVLA have not been advised of.

Year of manufacture:

Engine Size & Type: 2.5 V6 / 3.0 V6 / 4.0 V8 / 4.2 V8 / 4.2 Supercharged / 2.7 Diesel

Gearbox: Automatic / Manual

VIN / Chassis Number:

S A J

Engine Number:

Paint Code:

We have access to thousands of Jaguar parts. This information will help us to quickly locate the best parts for your Jaguar S-Type.

Timing Cover

TIMING CHAIN KITS

To avoid the problems associated with Jaguar's original tensioners, which sometimes lead to premature failure, all of our timing chain kits contain the latest specification of tensioner.

Timing chain kits are available pre-packaged and ready to fit. The kits contain chains and tensioners.

1. Timing chain kit, OE spec.	TCK8MAJ/1 (pictured)	1
2. Timing chain kit		
OE spec. tensioners, copy chains	TCK8MAJ/2	1
3. Timing chain kit		
Copy tensioners and chains, supplied w/out gaskets or seals	TCK8MAJ/3	1
